Dear Mr. Wood:

Enclosed find my check \$200 - final amount due on the lot of Bryan money.

It is of course pleasant to be in this part of the country during the summer months. but I would not mind giving up occasional half days to drop in at the Society Sanctum and to chat with you and the rest of the staff.

I will surely look forward to a resumption of my interest in the work, during the fall, provided I do not chase off to some foreign parts.

Pretty hot here today. Have had some good luck with the trout in our lake here, big fellows 2 - to 3 1/2 lbs. each. Am now waiting for a Salmon (land-locked variety.) An eight pounder was taken a few days ago near my camp. Give my regards to Mr. Noe, also Mr. Wyman if he is with you.

With best wishes to yourself,

Sincerely
W. P. Beaver

Dear Mr. Wood:

At your convenience please send to me the names of the more prominent European postage stamp dealers. I heard you mention one in London. If possible, I would like to get in touch with one in Germany and one in Holland.

When I see you in October I will have a lot of duplicates and will give to you any of them that may interest you. There are no rarities among them, but there are some outside the plentiful and trashy class.

The Reilly family are en-route homeward now. I suppose John will be loaded up with loot.

We will remain here until late in September.

With kind regards to you and Mr. Noe,

Sincerely yours,

Mr. Howland Wood

By the way, I was interested in reading your article in

Dear Mr. Beaver:

Your letter just at hand, and I am herewith listing a few of the more prominent European dealers, and am also sending you under separate cover a German philatelic paper, from which you can get a raft of other European dealers.

I have done very little with stamps this summer. In fact, have been away most of the time - which, incidentally, costs money.

We have had not a single word from John Reilly for, easily, a year. However, I suppose he will blow in here sometime this month.

We shall be very glad to see you when you return.

Very truly yours,

Curator
